FMVSS 110 Compliance Information

All dealers must determine if the weight they have added in the form of all options or accessories, when added to the weight of all Port/Dealer Installed options or accessories, exceeds the lesser of 1.5% of GVWR or 100 lbs. If the additional weight does exceed the lesser of the indicated thresholds, a "Load Carrying Capacity Reduced" label must be installed. A black, fine-point, indelible marker must be used to write by hand onto the label, the reduced carrying capacity in kilograms or pounds, which is the total weight of all added options and accessories.

Load Label Part Number: NP070 - 09003

Notes to the installer:

- 1 Read the entire Installation Instructions prior to beginning the installation of the part.
- 2 Make sure the vehicle is completely clean and dry in the area(s) the part is to be installed.
- 3 Ensure the vehicle is properly protected in the area(s) that the accessory is to be installed.
- 4 NEVER place tools on painted surfaces, seating surfaces, dash pad, console or floor carpet/mats.
- 5 Always wear appropriate personal protective equipment, including gloves, safety glasses, etc., when required.
- 6 For PIO installations, only use the provided magnetic templates. Do **NOT** use the included paper templates.

<p align="center">Battery replacement procedure</p> 	
<p align="center">NOTE</p>	<ol style="list-style-type: none"> Reinstall the scuff plate by aligning the four (4) plastic tabs, as shown. Press down firmly on the scuff plate. <ul style="list-style-type: none"> -An audible "click" will be heard when each plastic tab is fully engaged. Close the door.

D	
<p align="center">Battery replacement procedure</p> 	
<p align="center">NOTE</p>	<ol style="list-style-type: none"> Open the door and confirm the scuff plate logo illuminates properly.

Genuine Accessories

Visual Check

Item to be Checked		Result	
	Ensure the scuff plates are fully secured to the vehicle.	Scuff plates are not loose, or mis-set.	
	Ensure the scuff plates are not damaged.	Scuff plates function properly, and have no cosmetic defects.	

Function Check

Item to be Checked		Result	
	Each scuff plate illuminates when the door is opened.	The scuff plate illuminates properly when the door opens. The scuff plate light does not blink.	

Troubleshooting

Issue / Concern		Items to be Checked	
	The scuff plate does not illuminate properly.	Check that the magnet is still properly adhered to the vehicle. Check that the magnet is properly aligned, by using a template. Check that the batteries are not fully discharged.	

- Please ensure template prints to correct scale.
- It is recommended to print at "NO SCALE".
- Measure the dimensions below to confirm.
